Evidence-Based Disease and Disability Prevention Program: National Resource Center Modification

1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	HHS-2007-AOA-BP-0719
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Aug 17, 2007 See link to full announcement for details.
Funding Instrument Type:	Cooperative Agreement
Expected Number of Awards:	1
Estimated Total Program Funding:	\$850,000
Award Ceiling:	\$850,000
Award Floor:	\$850,000
CFDA Number:	93.048 -- Special Programs for the Aging Title IV and Title II Discretionary Projects
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Public and State controlled institutions of higher education
State governments
Private institutions of higher education
Native American tribal governments (Federally recognized)
Local Governments Faith-based and community organizations are eligible to apply.
Domestic public or private non-profit entities including state, local and Indian tribal governments, faith-based organizations, community-based organizations, hospitals, and institutions of higher education.

Description

Plans to fund one cooperative agreement through this competition for the Evidence-Based Disease and Disability Prevention Program: National Resource Center (CENTER). The CENTER must be an organization with demonstrated expertise in implementing evidence-based disease and disability prevention programs for the elderly and in working with state aging agencies, state health agencies, community-level aging services providers, and community health provider organizations. This project will be funded at a federal share of approximately \$850,000 for the first year, up to \$1,000,000 in the second year, and up to \$1,300,000 in the third year for a total project period of up to three years. The applicant must cover at least 25% of the projects total costs with non-federal resources. This grant will be issued as a cooperative agreement because AoA anticipates having substantial involvement with the recipient during the performance of the funded activities. The involvement may include collaboration, participation, or intervention in the funded activities. The types of activities funded under the cooperative agreement include technical assistance to AoA demonstration grantees in the development of evidence-based disability and disease

prevention programs and practices; assistance to additional parts of the aging services network in the development of similar programs; development of a comprehensive knowledge base focused on intervention models for the elderly that prevent the progression of disability; identification and/or construction of manuals and resources to help implement related programs; assistance to AoA in developing, hosting, and co-sponsoring national and/or regional training meetings or symposia on Evidence-Based Disability and Disease Prevention for the Elderly; and other related tasks. Applications will be evaluated in part on the degree of readiness of the applicant national organization to immediately support all aspects of existing and currently operating AoA Evidence-Based Disease and Disability Prevention (EBDP) Program grantees (approximately 24 grantees at the time that this cooperative agreement will go into effect) in the implementation of their grants, while assisting AoA in expanding the scope and quality of this program. The specific requirements for this opportunity are outlined in Section I.3. Background Information on the AoA EBDP Program is available at: <http://aoa.gov/prof/evidence/evidence.asp>

New Interventions for Menopausal Symptoms (U01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-AG-08-004
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Nov 24, 2007
Funding Instrument Type:	Cooperative Agreement
Estimated Total Program Funding:	\$4,350,000
CFDA Number:	93.213 -- Research and Training in Complementary and Alternative Medicine
CFDA Number:	93.865 -- Child Health and Human Development Extramural Research
CFDA Number:	93.866 -- Aging Research
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

Independent school districts

Public housing authorities/Indian housing authorities

Private institutions of higher education
 Native American tribal organizations (other than Federally recognized tribal governments)
 Native American tribal governments (Federally recognized)
 Public and State controlled institutions of higher education
 State governments
 Others (see text field entitled "Additional Information on Eligibility" for clarification)
 City or township governments
 County governments
 For profit organizations other than small businesses
 Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
 Small businesses
 Special district governments

Description

Women going through the menopause transition may experience a variety of symptoms, ranging from vasomotor symptoms (hot flashes and night sweats) to sleep disturbance, mood disorders, loss of sexual desire, and vaginal dryness. As many as two-thirds of all women report vasomotor symptoms, and over 85% report at least one menopausal symptom as they transition through menopause. For the 25% of women whose symptoms are severe, the resulting discomfort greatly diminishes their quality of life. For many decades, menopausal hormone therapy (MHT) using estrogen (or, in a woman with a uterus, a combination of estrogen and a progestin) has been the therapy of choice for relieving menopause-related symptoms. But recently, several large clinical trials, and in particular, the Women's Health Initiative, have found an increased risk of serious health problems, such as blood clots, stroke, heart disease, breast cancer and cognitive impairment, in women using estrogen-progestin regimens. Not surprisingly, women are reluctant to use MHT for menopausal symptoms and in search of alternative strategies to improve their quality of life.

Description

This RFA solicits applications to develop and implement a Data Analysis Center (DAC) as a part of the ENCODE Project. The goal of the ENCODE Project is to apply high-throughput, cost-efficient approaches to generate a catalog of sequence-based functional elements in the human genome. The DAC will be funded primarily to coordinate and to assist in the analysis of data produced by the ENCODE Consortium. -This RFA will use the NIH U01 Cooperative Agreement grant mechanism. -A total of \$1.0 million dollars in FY 2008 funds has been committed to fund applications received in response to this RFA.

 Office of Public Health and Science
 2007 Disease Prevention and Health Promotion Scholarship Program Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	HP-ATP-07-001
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Aug 13, 2007 To receive consideration, applications must be received no later than 5 p.m. Eastern Time on August 13, 2007.
Funding Instrument Type:	Cooperative Agreement
Expected Number of Awards:	1
Estimated Total Program Funding:	\$600,000
Award Ceiling:	\$600,000

Award Floor: \$0
CFDA Number: 93.990 -- National Health Promotion
Cost Sharing or Matching Requirement: No

Eligible Applicants

To qualify for funding, an applicant must be a professional non-profit organization, association, or institution of higher learning whose mission is to educate one or more of the following groups: medical and public health students, preventive medicine and primary care residents, public health professionals, and practicing clinicians from communities across the country. Eligible applicants also are encouraged to apply as partners and submit one joint application. Faith-based groups that meet the definition of professional non-profit organization or institutions of higher learning as described above are also eligible to apply.

Description

Under authority of Section 301, Title III of the U.S. Public Health Service Act: General Powers and Duties of the Public Health Service, 42 U.S.C. Section 301, ODPHP/OPHS, of the U.S. Department of Health and Human Services (HHS), announces a total of \$600,000 for fiscal year (FY) 2007 is available for a competitive cooperative agreement project entitled Disease Prevention and Health Promotion Scholarship Program. This project supports several focus areas of Healthy People 2010 specifically, Access to Quality Health Services; Educational and Community-Based Programs; Health Communication; and Public Health Infrastructure.

Faith-based or community-based organizations can apply.

Description

Purpose. The purpose of this Funding Opportunity Announcement (FOA) is to invite grant applications for biological, behavioral, social, addictive, and mental health research related to the health of lesbian, gay, bisexual, transgender, intersex, and other diverse populations. Proposed research should be appropriate for the missions of one or more of the participating Institutes. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism. Research applications that better fit under other award mechanisms, including the NIH Small Research Grant (R03) (see <http://grants.nih.gov/grants/guide/pa-files/PA-06-180.html>), the NIH Academic Research Enhancement Award (R15) (see <http://grants.nih.gov/grants/guide/pa-files/PA-06-042.html>), and the NIH Exploratory/Developmental Research Grant (R21) (see <http://grants.nih.gov/grants/guide/pa-files/PA-06-181.html>) are encouraged to be submitted under those other mechanisms. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

Department of Health and Human Services
Health Resources & Services Administration Rural Health Network Development Program
Modification 1

Current Closing Date for Applications: Oct 15, 2007

Expected Number of Awards: 30

Estimated Total Program Funding: \$5,400,000
CFDA Number: 93.912 -- Rural Health Care Services Outreach
and Rural Health Network Development
Program
Cost Sharing or Matching Requirement: No

Eligible Applicants

Public and non-profit private entities, including faith-based and community organizations. Applicants in rural counties or eligible rural census tracts within an urban county. Applicant providing services exclusively to migrant and seasonal farm workers in rural areas and is supported under Section 330G of the Public Health Service Act. Federally recognized Native American Tribe or Tribal Organization that will deliver services on a reservation or federally recognized Tribal lands.

Description

To support the development of rural health networks, whose purpose is to increase access to care by overcoming the fragmentation and vulnerability of providers in rural areas. Grant funds are used to support activities that strengthen capabilities of these networks.

Description

This Funding Opportunity Announcement (FOA) issued by the National Heart, Lung, and Blood Institute (NHLBI) solicits Research Project Grant (R01) applications from qualified researchers to investigate the biology of the lymphatic system and potential new therapeutic implications. The purpose of this program announcement is to stimulate research on the biology of the lymphatic system at all biologic levels: molecular, cellular, tissue, organ, and whole body levels. Further, it includes research on innovations for identifying and intervening in lymphatic diseases across all age groups and disease states. Mechanism of Support: This FOA will utilize the NIH Research Project Grant (R01) award mechanism. Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the numbers, quality, duration, and costs of the applications received. Eligible Institutions/Organizations: Public/State Controlled Institution of Higher Education; Private Institution of Higher Education; Nonprofit with 501(c)(3) IRS Status (Other than Institution of Higher Education); Nonprofit without 501(c)(3) IRS Status (Other than Institution of Higher Education); Small Business; For-Profit Organization (Other than Small Business); State Government; U.S. Territory or Possession; Indian/Native American Tribal Government (Federally Recognized); Indian/Native American Tribal Government (Other than Federally Recognized); Indian/Native American Tribally Designated Organization; Non-domestic (non-U.S.) Entity (Foreign Organization); Hispanic-serving Institution; Historically Black Colleges and Universities (HBCUs); Tribally Controlled Colleges and Universities (TCCUs); Alaska Native and Native Hawaiian Serving Institutions; Regional Organization; Other(s); Eligible agencies of the Federal government; Faith-based or community based organizations. Eligible Project Directors/Principal Investigators: (PDs/PIs). Individuals with the skills, knowledge, and resources necessary to carry out the proposed research are invited to work with their institution/organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. Number of Applications: Applicants may submit more than one application, provided each application is scientifically distinct. Renewals and Resubmissions: Applicants may submit a resubmission application, but such application must include an Introduction addressing the previous peer review critique (Summary Statement). Number of PDs/PIs: More than one PD/PI, or multiple PDs/PIs, may be designated on the application.

Description

Purpose. This Funding Opportunity Announcement (FOA) solicits Exploratory/Developmental (R21) grant applications from applicants that propose to stimulate and expand research in the health of minority men. Specifically, this initiative is intended to: 1) enhance our understanding of the numerous factors (e.g., socio-demographic, community, societal, personal) influencing the health promoting behaviors of racial and ethnic minority males and their subpopulations across the life cycle, and 2) solicit applications focusing on the development and testing of culturally and linguistically appropriate health-promoting interventions designed to reduce health disparities among racially and ethnically diverse males and their subpopulations age 21 and older. -Mechanism of Support. This FOA will use the Exploratory/Developmental (R21) grant mechanism and runs in parallel with a FOA confidential scientific scope, PA-07-422 that solicits applications under the R01 mechanism. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the mechanism numbers, quality, duration, and costs of the applications received.

Description

The purpose of this Program Announcement is to support innovative, multidisciplinary, interactive, and synergistic program projects that integrate basic, translational, and clinical approaches to understanding the developmental biology and genetic basis of congenital human malformations. Each Program Project application must consist of at least three component projects. At least one project must be clinical or translational in nature. The component projects must share a common central theme, focus, or objective on a specific developmental defect or malformation that is genotypically, mechanistically, biologically, or phenotypically analogous or homologous in both animal models and humans. Any non-mammalian or mammalian animal model may be used, as long as it contributes to the common overall theme or objective of the program project. -Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the quality, duration, and costs of the applications received. -This Program Announcement encourages Program Project (P01) grant applications.
